**Reporting Entity**

CentrePort Limited is a company registered under the Companies Act 1993. The Group consists of CentrePort Limited, its Subsidiaries and Associates as disclosed in Note 10.

Financial statements for CentrePort Limited (the "Parent") and consolidated financial statements (the "Group") are presented. The financial statements comprise statements of the following: financial performance; movements in equity; financial position; cash flows; as well as notes to these statements contained on pages 7 to 19 of this annual report. The financial statements and group financial statements of CentrePort Limited are presented in accordance with the Companies Act 1993 and the Port Companies Act 1988 and have been prepared to comply with the Financial Reporting Act 1993.

**General Accounting Policies**

The general accounting policies recognised as appropriate for the measurement and reporting of financial performance, movements in equity, financial position and cash flows under the historical cost method have been followed. The going concern concept has been adopted in the preparation of these financial statements. Accrual accounting is used to match income and expenses.

**Specific Accounting Policies**

The specific accounting policies adopted in the preparation of these financial statements, which materially affect the measurement of financial performance, movements in equity, financial position and cash flows are set out below:

**1.1 Basis of Consolidation**

The consolidated financial statements include the Parent and its subsidiaries. Subsidiaries are those entities controlled directly or indirectly by the Parent. The financial statements of subsidiaries are included in the consolidated financial statements using the purchase method. Associates are entities in which the Group has significant interest, but not control, over the operating and financial policies. The Associate Companies are accounted for on an equity accounting basis. The Group's share of the net surplus of Associate Companies is recognised as a component of revenue in the Statement of Financial Performance. Dividends received from Associate Companies are credited to the carrying amount of the investment in Associate Companies.

All significant **intra-group** transactions are eliminated on consolidation.

**1.2 Statement of Cash Flows**

The following are the definitions used in the Statement of Cash Flows:

- (a) Cash is considered to be cash on hand and current accounts in banks, net of bank overdrafts.
- (b) Investing activities are those activities relating to the acquisition, holding and disposal of fixed assets and of investments. Investments include securities not falling within the definition of cash.
- (c) Financing activities are those activities that result in the changes in size and composition of the capital structure of the Group. This includes both equity and debt not falling within the definition of cash. Dividends paid in relation to capital structure are included in financing activities.
- (d) Operating activities include all transactions and other events that are not investing or financing activities.

## NOTES TO THE FINANCIAL STATEMENTS

### For the Year ended 30 June 2003

#### 1.3 Revenue

Revenue shown in the Statement of Financial Performance comprises the amounts received and receivable by the Group for services provided to customers in the ordinary course of business. Income is stated exclusive of Goods and Services Tax collected from customers.

#### 1.4 Fixed Assets

The Group has four classes of fixed assets:

- Land
- Buildings, Wharves and Paving
- Cranes and Floating Plant
- Plant, Vehicles and Equipment

The fixed assets acquired by the Group on 1 October 1988 are recorded at cost, based on a business valuation carried out in accordance with the Company plan under Section 21 of the Port Companies Act 1988.

Subsequent purchases of fixed assets are recorded at cost. Cost represents the value of the consideration given to acquire the assets and the value of other directly attributable costs that have been incurred in bringing the assets to the location and condition necessary for their intended service.

All fixed assets, except land are depreciated.

#### 1.5 Leased Assets

Group entities lease certain land, buildings, wharves and plant. Operating lease payments, where the lessors effectively retain substantially all risks and benefits of ownership of the leased items, are charged to the Statement of Financial Performance in equal instalments over the lease term.

#### 1.6 Depreciation

Depreciation on fixed assets other than land, is charged on a straight line basis so as to write off the cost of the fixed assets to their estimated residual value over their expected economic lives. The expected economic lives are as follows:

Buildings	20 to 50 years
Wharves and Paving	10 to 50 years
Cranes and Floating Plant	10 to 50 years
Plant, Vehicles and Equipment	3 to 20 years

#### 1.7 Investments

Investments in Associate Companies are stated at the fair market value of the net tangible assets at acquisition plus the share of post-acquisition reserves.

Other investments are stated at the lower of cost and net realisable value.

#### 1.8 Receivables

Receivables are valued at expected net realisable value inclusive of Goods and Services Tax. Provision has been made for doubtful debts.

**CENTREPORT LIMITED**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**For the Year ended 30 June 2003**

**1.9 Inventories**

Inventories are valued at the lower of cost and net realisable value. Cost is calculated using the weighted average cost method. Provision has been made for obsolescence where applicable. Inventories are held for maintenance purposes only.

**1.10 Income Taxation**

The Group follows the liability method of accounting for deferred taxation.

The income taxation expense charged against the surplus for the year is the estimated liability in respect of that surplus and is calculated after allowance for permanent differences and timing differences not expected to reverse in the foreseeable future. This is the partial basis for the calculation of deferred taxation.

Future taxation benefits attributable to timing differences or taxation losses carried forward are only recognised when there is virtual certainty that the benefit of the timing differences or taxation losses will be utilised by the Group.

**1.11 Provision for Employee Entitlements**

A provision for employee entitlements is recognised as a liability in respect of benefits earned by employees but not yet received at balance date. Employee benefits include salaries, wages, annual leave and long service leave. Where the services that gave rise to the employee benefits are expected to be paid for within twelve months of balance date, the provision is the estimated amount expected to be paid by the Group. The provision for other employee benefits is stated at the present value of the future cash outflows expected to be incurred.

The present value is determined by discounting the future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liabilities.

**1.12 Provision for Dividends**

Dividends are recognised in the period that they are authorised and approved.

**1.13 Financial Instruments**

As part of normal operations, the Group is party to financial instruments with off balance sheet risk to meet financing needs. These financial instruments include bank overdraft facilities, forward interest rate and interest swap agreements. Forward interest rate and interest swap agreements are used within predetermined policies and limits in order to manage interest rate exposure. The differential to be paid or received is accrued as interest rates change and is recognised as a component of interest income / expense over the life of the agreements.

**1.14 Changes in Accounting Policies**

There have been no material changes in accounting policies during the year.

NOTE 14

**Financial Instruments**

Nature of activities and management policies with respect to financial instruments:

**Fair Values**

The estimated fair value of the forward interest rate swap agreements is a deficit of \$219,000 (Carrying Value \$Nil). The estimated fair values of all other financial instruments of the Group are the carrying amounts of the financial instruments.

**Interest Rate Risk**

Interest rate risk is the risk that the value of the Group's assets and liabilities will fluctuate due to changes in market interest rates. The Group is exposed to interest rate risk primarily through its cash balances and advances, bank overdrafts and borrowings. To minimise this risk, management monitors the levels of market interest rates on an on going basis and uses forward rate and swap agreements to hedge interest rates when rates are anticipated to rise. At balance date the Group had entered into the following forward rate and swap agreements that had interest rates ranging from 5.6% to 6.4% p.a. and maturities of:

	<b>Group and Parent</b>	
	2003	2002
	\$000	\$000
Less than One Year	7,000	3,000
One to Two Years	7,500	7,000
Two to Three Years	2,500	5,000

**Credit Risk**

Credit risk is the risk that the counter party to a transaction with the Group will fail to discharge its obligations, causing the Group to incur a financial loss. The Group is exposed to credit risk through the normal trade credit cycle and advances to third parties. The Group performs credit evaluations on all customers requiring credit and generally does not require collateral. Maximum exposures to credit risk as at balance date are:

	<b>Group</b>		<b>Parent</b>	
	2003	2002	2003	2002
	\$000	\$000	\$000	\$000
Receivables	3,087	3,255	3,056	3,255
Term Investments	<b>1,350</b>	1,500	<b>1,350</b>	1,500

No collateral is held on the above amounts except for those disclosed in Note 10.

**Concentrations of Credit Risk**

The Group's major concentration of credit risk is in respect to its \$1,350,000 term investments. The Group is not exposed to any other concentrations of credit risk.

**Liquidity Risk**

Liquidity risk is the risk that the Group will encounter difficulty in raising funds at short notice to meet its financial commitments as they fall due. To reduce the exposure to liquidity risk the Group has a bank overdraft facility of \$1,000,000 (2002: \$1,000,000), New Zealand dollar Commercial Bill facilities of \$40,000,000 (2002: \$40,000,000) and other borrowings of \$215,000 (2002: Nil). Of these \$23,715,000 (2002: \$26,393,000) had been drawn down by the Group at balance date.
