**GREATER WELLINGTON INFRASTRUCTURE LIMITED
NOTES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD ENDED 30 JUNE 2008**

1. STATEMENT OF ACCOUNTING POLICIES

REPORTING ENTITY

Greater Wellington Infrastructure Limited is registered under the Companies Act 1993 and is a wholly owned subsidiary of WRC Holdings Ltd, which in turn is a wholly owned subsidiary of Greater Wellington Regional Council.

The Company is a council controlled trading organisation as defined in section 6 of the Local Government Act 2002.

For the purposes of financial reporting the company is designated as a profit-oriented entity.

STATEMENT OF COMPLIANCE

The financial statements are presented in accordance with the requirements of the Companies Act 1993, the Financial Reporting Act 1993 and the Local Government Act 2002 and New Zealand Generally Accepted Accounting Practices (NZ GAAP).

These financial statements are prepared in accordance with New Zealand equivalents to International Financial Reporting Standards (NZ IFRS), as appropriate for profit oriented entities.

MEASUREMENT BASE

The general accounting principles recognised as appropriate for the measurement and reporting of earnings and financial position on a historical cost basis are followed by the Company.

ACCOUNTING POLICIES

The following accounting policies which materially affect the financial statements have been consistently applied.

(a) Revenue Recognition

Revenue is recognised when billed or earned on an accrual basis.

Grants for asset purchases are initially recognised in the balance sheet as deferred income and only recognised in the income statement over periods necessary to match them with the related use over the life of the asset.

Other grants and contributions from territorial local authorities are recognised in the Income Statement when eligibility has been established by the grantor.

(b) Income Tax

Current Tax

Current tax is calculated by reference to the amount of income taxes payable or recoverable in respect of the taxable profit or tax loss for the period. It is calculated using tax rates and tax laws that have been enacted or substantively enacted by reporting date. Current tax for current and prior periods is recognised as a liability (or asset) to the extent that it is unpaid (or refundable). Tax assets and liabilities are offset only when the company has a legally enforceable right to set off the recognised amounts, and intends to settle on a net basis.

Deferred Tax

Deferred tax is accounted for using the comprehensive balance sheet liability method in respect of temporary differences arising from differences between the carrying amount of assets and liabilities in the financial statements and the corresponding tax base of those items.

In principle, deferred tax liabilities are recognised for all taxable temporary differences. Deferred tax assets are recognised to the extent that it is probable that sufficient taxable amounts will be available against which deductible temporary differences or unused tax losses and tax offsets can be utilised. However, deferred tax assets and liabilities are not recognised if the temporary differences giving rise to them arise from the initial recognition of assets and liabilities (other than as a result of a business combination) which affects neither taxable income nor accounting profit.

GREATER WELLINGTON INFRASTRUCTURE LIMITED
NOTES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD ENDED 30 JUNE 2008

(b) Income Tax - continued

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries, branches, associates and joint ventures except where the consolidated entity is able to control the reversal of the temporary differences and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets arising from deductible temporary differences associated with these investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period(s) when the asset and liability giving rise to them are realised or settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by reporting date. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

Current and deferred tax for the period

Current and deferred tax is recognised as an expense or income in the Income Statement, except when it relates to items credited or debited directly to equity, in which case the deferred tax is also recognised directly in equity, or where it arises from the initial accounting for a business combination, in which case it is taken into account in the determination of goodwill or excess.

(c) Property Plant and Equipment

No Assets were owned at balance date

(d) Depreciation

Depreciation is provided on a straight line basis on all tangible property, plant and equipment other than capital works in progress, at rates which, will write off assets, less their estimated residual value, over their remaining useful lives.

There has been no depreciation in the period to 30 June 2007 as no assets were owned at balance date.

(e) Goods and Services Tax (GST)

The company is part of the Wellington Regional Council GST Group. All items in the financial statements are exclusive of GST.

Where GST is not recoverable as an input tax it is recognised as part of the related asset or expense.

(f) Changes in Accounting Policies

There have been no changes in accounting policies during the period.

AUDIT REPORT**TO THE READERS OF
GREATER WELLINGTON INFRASTRUCTURE LIMITED'S
FINANCIAL STATEMENTS AND PERFORMANCE INFORMATION
FOR THE YEAR ENDED 30 JUNE 2008**

The Auditor-General is the auditor of Greater Wellington Infrastructure Ltd (the company). The Auditor-General has appointed me, A P Burns, using the staff and resources of Audit New Zealand, to carry out the audit of the financial statements and performance information of the company, on his behalf, for the year ended 30 June 2008.

Unqualified Opinion

In our opinion:

- The financial statements of the company on pages 5 to 12:
 - comply with generally accepted accounting practice in New Zealand;
 - give a true and fair view of:
 - the company's financial position as at 30 June 2008; and
 - the results of its operations and cash flows for the year ended on that date.
- The performance information of the company on page 12 gives a true and fair view of the achievements measured against the performance targets adopted for the year ended 30 June 2008.
- Based on our examination the company kept proper accounting records.

The audit was completed on 17 September 2008, and is the date at which our opinion is expressed.

The basis of our opinion is explained below. In addition, we outline the responsibilities of the Board of Directors and the Auditor, and explain our independence.

Basis of Opinion

We carried out the audit in accordance with the Auditor-General's Auditing Standards, which incorporate the New Zealand Auditing Standards.

We planned and performed the audit to obtain all the information and explanations we considered necessary in order to obtain reasonable assurance that the financial statements and performance information did not have material misstatements, whether caused by fraud or error.

Material misstatements are differences or omissions of amounts and disclosures that would affect a reader's overall understanding of the financial statements and performance information. If we had found material misstatements that were not corrected, we would have referred to them in our opinion.

The audit involved performing procedures to test the information presented in the financial statements and performance information. We assessed the results of those procedures in forming our opinion.

Audit procedures generally include:

- determining whether significant financial and management controls are working and can be relied on to produce complete and accurate data;
- verifying samples of transactions and account balances;
- performing analyses to identify anomalies in the reported data;
- reviewing significant estimates and judgements made by the Board of Directors;
- confirming year-end balances;
- determining whether accounting policies are appropriate and consistently applied; and
- determining whether all required disclosures are adequate.

We did not examine every transaction, nor do we guarantee complete accuracy of the financial statements and performance information.

We evaluated the overall adequacy of the presentation of information in the financial statements and performance information. We obtained all the information and explanations we required to support our opinion above.

Responsibilities of the Board of Directors and the Auditor

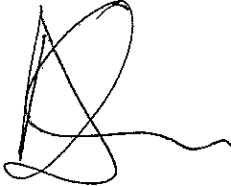

The Board of Directors is responsible for preparing the financial statements in accordance with generally accepted accounting practice in New Zealand. The financial statements must give a true and fair view of the financial position of the company as at 30 June 2008 and the results of its operations and cash flows for the year ended on that date. The Board of Directors is also responsible for preparing performance information that gives a true and fair view of service performance achievements for the year ended 30 June 2008. The Board of Directors' responsibilities arise from the Financial Reporting Act 1993 and the Local Government Act 2002.

We are responsible for expressing an independent opinion on the financial statements and performance information and reporting that opinion to you. This responsibility arises from section 15 of the Public Audit Act 2001 and section 69 of the Local Government Act 2002.

Independence

When carrying out the audit we followed the independence requirements of the Auditor-General, which incorporate the independence requirements of the Institute of Chartered Accountants of New Zealand.

Other than the audit, we have no relationship with or interests in the company.
