## Consultation

### Non-notified applications

Non-notified consents are for activities which have minor effects on the environment. For your activity to be considered on a non-notified basis you must obtain written approval from all parties potentially affected by your activity (eg, neighbours, iwi, Fish and Game Council, Department of Conservation). If you are unsure who may be an affected party, please call us.

*Non-notified consents are significantly cheaper and quicker to process.*

### Notified applications

Notified consents are for activities which do not meet the requirements for processing on a non-notified basis. Consultation with all parties potentially affected by your activity prior to lodging your application may result in significant time and cost savings (eg, neighbours, iwi, Fish and Game Council, Department of Conservation, user groups and interest groups).
