

Mahere-ā-Tau 2020/21 Annual Plan 2020/21

WHAT GREATER WELLINGTON DOES IN OUR REGION

Greater Wellington has a role as an environmental protection organisation for our region. Greater Wellington has another role as the owner of Metlink, the organisation that delivers public transport across the region.

Now, these might seem like incompatible roles but that's not necessarily the case.

More people using public transport, means fewer cars on the road, means less pollution and a cleaner environment.

Further down, you'll find more information about what Greater Wellington does across the region.

WHAT GREATER WELLINGTON IS DOING IN THE KĀPITI COAST

Beginning the Kāpiti Whaitua Process. This process involves a group of local people who are tasked with finding ways to improve the quality of our streams and rivers.

Implementing year one of the planned retreat of road, track and other visitor facilities from the Queen Elizabeth Park shoreline between Raumati and Paekākāriki.

Upgrading the MacKays Crossing entrance area at Queen Elizabeth Park to improve access for pedestrians, cyclists and vehicles.

Establishing a new access track through the north eastern peatlands at QEP.

Implementing the Ōtaki and Waikanae Flood Management Plans. A floodplain management plan emphasises the need to 'keep the river away from the people' rather than 'keep people away from the river'.

How did we calculate your 2020/21 rates?

After reviewing our work programme and budgets for 2020/21 in light of the current COVID-19 pandemic, Council adopted an average rates increase of three percent, across the region.

This equates to approximately an average of \$0.21 (incl. GST) and \$1.18 (excl. GST) increase per week for the residential and business ratepayer respectively and an average decrease of \$0.18 (excl. GST) for the rural ratepayer region-wide.

Your individual rate demand may differ from the figures above as they are an average across the whole region. Each area within the region has a different set of inputs on which your rates are calculated. What this means is that your rates bill is likely to differ from that of your neighbour's and your neighbouring areas. For a more personalised estimate of your 2020/21 rates please check out our rates calculator at rates.gw.govt.nz

What do your rates pay for?

10%

Regional Leadership

52%

Public Transport

21%

Environment

13%

Flood Protection and Control Works

4%

Regional Parks and Forests

How do rates contribute to Greater Wellington's overall income?

Kāpiti Coast		Rates 2020/21	Change in amount per annum	Change in amount per week
Residential (incl. GST)	Kāpiti Coast district (excluding Ōtaki)	\$532.84	\$19.86 higher	\$0.38 higher
	Ōtaki rating area	\$294.48	\$3.76 lower	\$0.07 lower
Business (excl. GST)	Kāpiti Coast district	\$1,054.43	\$82.47 higher	\$1.59 higher
Rural (excl. GST)	Kāpiti Coast district	\$414.62	\$11.90 lower	\$0.23 lower
	Tararua district	\$401.14	\$33.37 lower	\$0.64 lower

Here are some of the activities that Greater Wellington will be doing across the region.

Finalising and implementing the proposed Natural Resources Plan (pNRP).

The pNRP sets out guidelines for people that use the region's resources.

Implementing year two of the Greater Wellington Regional Pest Management Plan 2019-2039.

The plan establishes a framework for managing or eradicating specified plants or animals within the Wellington region.

Finalising and implementing the Parks Network Plan.

This plan is designed to provide a coherent, consolidated management regime for the network as a whole as well as specific management provisions for each park.

Delivering the second year of the Wellington Regional Erosion Control Initiative programme.

Erosion is an issue across New Zealand; this programme targets the Wairarapa region.

Consultation and adoption of the Regional Land Transport Plan.

This plan is a blueprint for a transport network that will keep the Wellington region on the move.

Delivering programmes, such as Movin' March, to encourage active travel and use of public transport.

Continuing to work with KiwiRail and Transdev to improve the rail network.

Working with our bus operators to continually improve bus service performance.

Implementing a number of improvements to our water supply infrastructure.
