Request for information 2022-064

I refer to your request for information dated 17 May 2022, which was received by Greater Wellington Regional Council (Greater Wellington) on 17 May 2022. You have requested the following:

“May I please be sent a list or map of all bus-stops in Lower Hutt (Hutt City Council territory), identifying

- which have a modern bus shelter (with year of upgrade, or age),*
- which have an old bus shelter (age bracket if possible), and*
- which have no shelter.*
- which busstops are scheduled for upgrade to a modern shelter, and when this is programmed to happen (financial year is fine).*

Please also provide detail of annual capital and operational expenditure on bus infrastructure in Lower Hutt. And advise what is the rough capital cost of a basic new shelter, and the cost over recent years of new/upgraded large or more elaborate shelters such as Queensgate and War Memorial Library. And detail of capex and opex on all other bus facilities, including depots, within Lower Hutt City.

Further to this, please include the location and installation plans for real-time displays in Lower Hutt, and the spend on these in recent years.”

Greater Wellington’s response follows:

Bus Stops, Modern Bus Shelters, Old Bus Shelters, No Shelters, Shelters Scheduled for Upgrade

Please refer to **Attachment 1** which contains a list of bus stops within the Hutt City Council (HCC) district. **Attachment 2** provides a map of the shelters, categorisation and percentage of shelter coverage (against patronage), in the HCC district.

Attachment 1 is broken down into the following columns:

- Bus stop number

- Bus stop name
- Suburb
- Bus stop type
- Shelter Y/N (1 = yes there is a shelter, 0 = there is no shelter)
- Shelter type
- Year Replacement Scheduled

The shelter types identified in Attachment 1 are:

- New shelter
- Metal shelter – these shelters range in functionality but are not currently prioritised for replacement
- Old shelters – these shelters are predominantly concrete and wooden shelters that have low functionality, near end of life and/or not entirely compliant with Crime Prevention Through Environmental Design (CPTED) standards
- 3rd party shelter – these are advertising shelters owned by Go Media and contracted to HCC

Annual Capital and Operational Expenditure

The Operational expenditure for bus infrastructure within HCC district is approximately \$286,111 per annum. This is an approximate cost for the 651 bus stops within the HCC district and is based on the costs associated with the cleaning and maintenance of stops and includes but is not limited to the following:

- Graffiti cleaning
- Glass repairs
- General shelter repairs (e.g. seating replacement)
- Signage repairs and replacements
- New poles
- Shelter cleaning

The Capital expenditure amounts to approximately \$450,000 per annum. This cost relates to the installation of new shelters as well as renewing some of the older shelters under the renewal programme. The renewal programme identifies older shelters that do not align with the required CPTED standards and have low functionality.

Cost of new shelter

The approximate cost of a new bus shelter, fully installed is \$21,000.

Cost over recent years of new/upgraded large or more elaborate shelters such as Queensgate and War Memorial Library

No work to upgrade any large shelters has been undertaken in recent years.

Detail of capex and opex on all other bus facilities, including depots, within Lower Hutt City.

There is no other opex or capex costs met by Greater Wellington for bus facilities, depots, or any other facilities associated with bus services within Lower Hutt City. Bus depots are owned by the respective bus operators. This part of your request is therefore refused under section 17(e) of the Local Government Official Information and Meetings Act 1987 (the Act) on the grounds that this information does not exist.

The location and installation plans for real-time displays in Lower Hutt, and the spend on these in recent years.”

There are 35 Real Time Information (RTI) displays at bus stops in the HCC district. It costs a total of approximately \$45,000 per annum to operate these displays.

There are no current plans to install new RTI's in the HCC district. This part of your request is therefore refused under section 17(e) of the Act on the grounds that there are no plans to install new RTI's and therefore the information request does not exist.

If you have any concerns with the decision(s) referred to in this letter, you have the right to request an investigation and review by the Ombudsman under section 27(3) of the Local Government Official Information and Meetings Act 1987.

Please note that it is our policy to proactively release our responses to official information requests, where practicable. Our response to your request will be published shortly on Greater Wellington's website. Whilst it is Greater Wellington's standard practice to remove the name and contact details of a requestor in a response released proactively, as you are a publicly announced intending candidate for Greater Wellington's 2022 elections, we will publish this response to the Greater Wellington website without your name redacted.

Nāku iti noa, nā

Samantha Gain
