<tr><td>WAR090233</td><td>Lakeside Ag Limited</td><td>87</td><td>Lake Wairarapa</td><td rowspan="5">Due to the fluctuating nature of levels in Lake Wairarapa, restrictions are applied at the direction of Greater Wellington Regional Council. Direction to cease abstraction will be given when:
1. The water level in Lake Wairarapa is at or below the minimum target lake levels*, and
2. The levels in the lake have been receding for the preceding five days, and
3. The flow in the Tauherenikau River at Gorge falls below 1300 litres/second.
Only once all three trigger levels occur simultaneously must abstraction cease. To ensure ease of monitoring for the consent holder, the consent holder simply needs to monitor the lake levels and check whether direction has been given by the Manager, Environmental Regulation, Wellington Regional Council via the Wellington Regional Council’s website. *
